Alpha Metal Recycling Acquires Scher Scrap Metal Company

CHICAGO, IL (April 19, 2018) – The Chicago-based metal recycling provider Alpha Metal Corporation has acquired Scher Scrap Metal Company, Inc., a third-generation business with decades of experience within the Chicago scrap industry. The acquisition allows Alpha Metal Corporation to expand its services and add trucks to its existing fleet.

As part of this move, Alpha Metal Recycling welcomes Steve Rosenberg, who served as Vice President and General Operations for Scher Scrap Metal Company. In his new role as Vice President of Operations for Alpha Metal Recycling, Rosenberg will use his 40-plus years of industry experience and extensive customer relations to service all types of industrial scrap metal programs.

“Through this acquisition, we will also bring in and maximize Steve Rosenberg’s talent in a variety of areas, including inventory management, operational efficiencies and logistics,” according to Edie Comminos, President and Founder of Alpha Metal Recycling. “Ultimately, we are broadening our business perspective to better serve existing and new manufacturing customers’ needs.”
